Brite White

Galvalume

Bare metal with a clear coat. Also called Acralume or Galvalume Plus.

Color accuracy notice: Printed and on-screen colors will vary depending on your printer, screen and device settings, and can look noticeably different than the actual metal. This chart is a general reference only. We highly recommend stopping by our office to view a physical sample of any color before making a final decision. **Conco Metal Roofing Supply will not be responsible for customers not satisfied with the color.**

WeatherXL™

WeatherXL is a premium silicone-polyester coil coating with strong resistance to chalking and fading and long-lasting color and gloss. Ask us for a copy of the 40-year warranty.
